Review of
World Affairs

In a recent message with us, G. F. W. H. Russell, UNRRA chief, made a
point that the UNRRA could do a great deal to ease the suffering of the
millions of people around the world. However, he also pointed out that
the UNRRA must be careful not to become involved in local politics or
administrative matters. He suggested that the UNRRA should focus on
the big picture and work to achieve the long-term goals of the UN.

The meeting in Berlin

It is likely that the conference will

be attended by many world

leaders. Germany will be a

major point of discussion,

especially with regard to

reconciliation with Eastern

Europe. The United States

will also be represented,

and it is hoped that the

conference will lead to

a more peaceful world.

The attack on Munich

The Munich agreement has

been implemented on a

small scale, and it is hoped

that it will continue to

be successful.
